Hello There,

Thank you for writing in!

Production model has a Channel-bound 9.5"–14" compound-radius fingerboard and Mod Shop version is 9.5 radius but overall same neck. Thank you for choosing Fender.

Hi,

The mod shop has a neck listed as channel bound modern C Stratocaster

Is that neck the same as the AMERICAN CHANNEL BOUND STRATOCASTER® NECK, 21 MEDIUM JUMBO FRETS – ROSEWOOD which is offered for sale on this page?

Thanks
